DE&DE STUDIO

Bachelors' shelter

All young men would like to start their independent life in a place where everything is thoroughly planned and which design totally reflects their personality. Our client purchased an apartment in the modern residential complex called “Lachta Plaza” and while contacting our studio already knew what kind of interior he wants: monochrome, minimalistic and brutal.

Our team realized all the clients requests into stylish and contemporary space where everything has the right place. To enlarge the space visually we made “a box effect” by using ceramic and wooden panels. A gorgeous brown marble and dark oak textures together with minimalistic lighting create a real bachelor's shelter mood.

Well known Bonaldo sofa takes the main spot in the living room space. Asymmetric kitchen composition give an impression of a planned little disorder.

The master bedroom is divided from the bathroom by glass “ADL” slide door. Through the bathroom you can easily get into the walk in closet.

Clients' favorite spot of the whole space became a small study where we organized a comfy lounge “Mad joker” by “Poliform” brand. The place where you can enjoy a very nice view through panoramic windows.
